SUMMARY

Computer Systems Engineering student at Palestine Technical University – Kadoorie with hands-on experience in Front-End Development using HTML, CSS, JavaScript, React, and Tailwind CSS. Developed responsive web applications, including an e-commerce website for a local business. Completed Front-End Development training at SEF Academy and currently expanding skills in Back-End Development and Artificial Intelligence. Passionate about building user-friendly web applications and continuously improving technical skills.

TECHNICAL SKILLS

Programming Languages: Java, C++

Web Technologies: HTML, CSS, Tailwind CSS, JavaScript, React, React Router

Concepts: OOP, Database Systems

Tools & IDEs: VS Code, IntelliJ IDEA, CLion, NetBeans

Version Control: Git, GitHub

TECHNICAL PROJECTS

- **Areen Store — Front-End Developer** https://areen-store.vercel.app/
  Developed a responsive e-commerce website for a real local store using HTML, Tailwind CSS, and JavaScript.
  Designed product pages and implemented interactive shopping cart features.
  Improved user experience through responsive layouts and clean UI design.
  GitHub: https://github.com/waseem-marabi1/AreenStore
- **Portfolio Website — Front-End Developer** https://waseem-marabi1.github.io/
  Developed a responsive personal portfolio using React, Vite, and Tailwind CSS.
  Built interactive components, animations, and navigation using React Router.
  Showcased technical skills and projects, and deployed the website on GitHub Pages.
  GitHub: https://github.com/waseem-marabi1/waseem-marabi1.github.io
- **MovieHub — Front-End Developer** https://waseem-marabi1.github.io/moviehub/
  Developed a responsive movie website using HTML, CSS, and JavaScript.
  Designed a user-friendly interface for browsing movies.
  Added interactive elements and optimized layouts for different screen sizes.
  GitHub: https://github.com/waseem-marabi1/moviehub.git
- **Optical Store Website — Front-End Developer** https://waseem-marabi1.github.io/lux-optics/
  Developed a responsive eyewear e-commerce interface using HTML, CSS, and JavaScript.
  Designed organized product sections and modern UI layouts.
  Improved the browsing experience with clean styling and responsive design.
  GitHub: https://github.com/waseem-marabi1/lux-optics.git

EDUCATION

- **Bachelor's Degree in Computer Systems Engineering — Palestine Technical University – Kadoorie** (2023–Present)
  Currently studying Computer Systems Engineering with a focus on programming, problem-solving, and web development
- **Front-End Web Development Course — SEF Academy (Online)** (2025–2026)
  Completed Front-End Web Development training covering HTML, CSS, JavaScript, and React, with practical experience through projects and exercises.
- **Artificial Intelligence Course — SEF Academy (Online)** (2026–Present)
  Currently learning Artificial Intelligence, including Machine Learning, Deep Learning, and related AI technologies, with the goal of developing practical AI engineering skills.

ACTIVITIES & VOLUNTEERING

- **Tech Ambassador**, BinX Tech
  - Represent BinX Tech as a student ambassador at Palestine Technical University – Kadoorie.
  - Promote the company's technical programs, events, and learning opportunities among university students.
  - Support student engagement and communication between the company and the university community.

EXPERIENCE

- **Front-End Developer** at Areen Store, Palestine (Remote) (07/2026-08/2026)
  Developed a responsive e-commerce website for a local store using HTML, Tailwind CSS, and JavaScript.
  Designed and implemented product pages and interactive user interface components.
  Focused on responsive design, clean layouts, and user experience
